

# CMMS SOFTWARE BENEFITS FOR SCHOOLS & UNIVERSITIES

[WWW.DPSI.COM](http://WWW.DPSI.COM)

## MANAGE WORK ORDERS

Generate, assign, update, schedule and close work orders quickly and easily. Report on and keep track of labor, parts, and miscellaneous maintenance costs.

## MOBILE MAINTENANCE

Create and manage work orders, access data such as previous work history for facilities and equipment, and perform other maintenance tasks on the go.

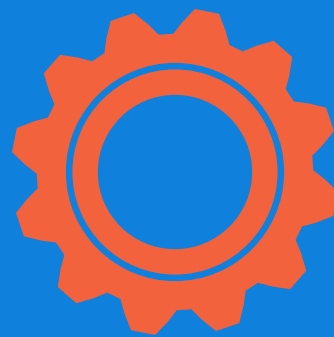

## INCREASE PRODUCTIVITY

Streamline communication between staff members, eliminate paperwork and improve workflow by utilizing a modern maintenance system.

## MAINTAIN ASSETS

Create preventive maintenance schedules for your school's assets in order to keep them running smoothly and avoid unnecessary breakdowns.

## ENSURE COMPLIANCE

Organize and easily access important records related to regulatory standards. Provide detailed documentation as needed to demonstrate compliance.

## ENHANCE SAFETY

Establish a schedule for routine maintenance on equipment and facilities. This helps ensure a safe environment for students, faculty, staff and visitors.
